Statement for School Principal (or delegate)

Please note that at this time the School is looking to see if the student is predicted to meet the threshold required for medicine – it is not intended to be a prediction of the actual ATAR. This prediction will be used, along with the UMAT score, to determine whether this student may be invited to an interview before the actual HSC results are available. In final decisions about selection, the actual ATAR will always be used. Students whose predicted ATAR is below the admissions threshold but actual ATAR is at or above it, will be eligible to be invited to a late round of interviews.
