You will receive academic advice at Course Planning Sessions which is part of the Orientation program. It is recommended that you understand your course structure and unit selection options before this.

The on-line Handbook provides comprehensive information. Go to http://handbook.uws.edu.au/hbook/ and perform a course search to find information on the course you will enrol in.

When you can answer the following questions, you can go to the next step:
- What units must I enrol in during my first semester?
- Do I have any optional units in my first semester?
- What units should I take in my first semester to make sure I meet the pre-requisite requirements for second semester?

Remember your ID number and password for the Course Planning Sessions. You will need this information to enrol so don’t forget it!
