

## **HONORARY AWARDS as at December 2012**

The University of Western Sydney from time to time confers honorary awards on distinguished individuals who have contributed to the advancement of knowledge or the betterment of society and who have achieved eminence in their field of endeavour at local, State, national or international level.

Only a small number of these awards are made in any given year and the University and its community join in this public recognition and celebration of achievement at the highest levels.

The Board of Trustees may confer the following honorary awards:

- a. Honorary Doctor of Letters or Honorary Doctor of Science for contributions to knowledge, to the broader community, the nation and the world; or
- b. Honorary Fellowship for contributions to the University; or
- c. in exceptional circumstances, an existing award of the University (on an honorary basis), having regard to the nature of the achievement and the appropriateness of the award to the circumstances; and
- d. for each of these cases where the achievements and contributions are consistent with the ideals and objectives of the University.

### **UWS Honorary Awards (*by name*)**
