Our Most Distinguished Royal Couple

The "O" Week Welcome

Orientation Week arrived with a bang in '89 (the year of the University) with hundreds of Tors arriving, many of whom will celebrate the centenary in 1991 as Tors.

With enrolments over by Wednesday, the Tors and Observers set about instilling 98 years of spirit and tradition in the hearts and minds of their Tors.

Many will probably relate to the disorientation involved on the first day at college. Hayrides and college tours were a great help to those lost and bewildered first years.

Then the fun began....

Wednesday 3.30 pm arrived - along with the wonderful process of Tee Group formations and the concoction of wild and witty names. From cows to cavities, and vegetables to underpants, a few homestuthes evolved.

After the christenings, each Tee was hurled into a multitude of activities. Still, there was time to relax with the Bush Dance on Wednesday night and Tee Concert on Thursday night.

The river farm on Thursday was hot and steamy, with sunburn being a good excuse to hide embarrassment. Fun was had all round and it was guaranteed there would be some sound sleepers on Thursday night!

Hoe-downs and hoopers, sunscreen and sandals all made 1989 "O" Week unforgettable.
Editorial

The new editorial team of Jumbunna would like to welcome both returning and all new students to Hawkesbury. We wish everyone the best for 1969.

This is the year for all students to excel in original contributions to Jumbunna with writing, drawings, cartoons, or photographs—wherever your talents lie! The editorial team for 1969 is Stuart Dagmen (Drooper), Don Cleman (Bull), Michael Hartman (Tickle) and Jenny Lockhart (S.C). We are all looking forward to hearing from you.

Jumbunna is the students' weekly newspaper providing a valued means of communication throughout each faculty and letting everyone have a say.

The editorial team is hoping Jumbunna will once again provide the weekly news update and approaching events, letters to the editor, student profiles, public notices, sports events, photographs, etc.—providing, that is, that everyone contributes and gets in and has a go!

Basically, almost anything will be published—provided the editorial team receives the material with each contribution. If you do not wish your name to be published, make sure you make this clear on your contribution.

In addition, contributions are to be dropped into the Jumbunna Office (located above the coffee lounge in Stable Square) no later than 1 pm, Thursday of each week. Office hours are 9.30 am to 5 pm, Wednesday, Thursday and Friday.

Good luck with 1969 and your studies—a happy, healthy, not too hectic and successful year.

The editorial team and other students look forward to hearing from you, so get active, get the minds rolling and pens, crayons or cameras clicking, and show us what you're made of!

Hope to hear from everyone by next week (or close to it!).

Jenny Lockhart (on behalf of the editorial committee).

Letters

Dear Editor,

I would like to share with your readers some of my ideas and experiences. I have just entered 1969 at Hawkesbury.

My first point that I would like to raise is that I was able to hear several submissions to the Student Appeals Committee. From listening to the four submissions I realised that students seem to be only paying lip service to the paper they sign making then if they are aware of the rules governing assessment and appeals over grades. These rules are in place to help those students who have had genuine misadventure or illness during semester or exam period. If you are having trouble during semester or exam period consult one of your lecturers and explain your situation. I am sure that you will find them understanding as they would prefer to see every one of their students pass then deliberately make life hard for students so that you fail. Well, it didn't take long for some idiot to damage the sign down the front drive. For those that are ill-informed, the wall and the associated lettering was presented as a gift to the college by third year students in 1966. This wall was not put there by Administration to ire those students that have been left behind and are still back in the dark ages and are ignorant of the trends and essential changes that have to be made in tertiary education.

We hope on the subject of the Uni of the West, we as a college have a lot to gain from the benefits that are offered by a university, academically speaking, but increasing pressure will be placed upon our traditions and social activities here at H.A.C. At the first meeting of the board of governors provision has been made for student welfare to be reviewed. If you believe the changes that are happening or will happen in the future effect the welfare of the current students and future students, then channel your problem through the Student Representative Council. Positive changes occur around Hawkesbury through the S.R.C. and it is only as strong as the student support network around it.

During the last meeting of the College Council, held on Friday 10th February 1969—

(1) provisions were made in the annual budget for "a 52 bed expansion of residential facilities on campus";

(2) discussions involving a professional campaign to "lure" overseas students to the college as a whole;

(3) a table was presented showing that of all the courses offered by this college the Business course was in most demand with Horticulture running a close second. All other courses other than the faculties of Food Science and Nursing look likely to be filled while Ag looks like it just might fill its positions.

What is happening to the acceptance of our Ag courses? The problems are varied and complex as explained by Bob Macdonald during the meeting. For a bit of trivia I overheard someone the other day count that N.S.W. now has ten institutions offering a degree in Agriculture, with the latest being Orange Ag College offering an Agri-business course. From what I have heard this new course has adopted many of our paradigms and philosophies. Is this a sign that other institutions are now realising the benefits of our course?

(4) Mr Alex Dix a member of our College Council was elected Deputy Chancellor unopposed on the Board of Governors of the University of the West. I am sure that Alex will give Hawkesbury a fair and just hearing at all times whilst upholding his position in the Uni of the West. Alex and Dr Swain are now our two channels for affairs effecting the students on this college to be heard by the board of governors.

We hope that Hawkesbury Ag College is moving in the right direction and it is the job of the students to see that the integrity and history is maintained in a positive and appreciable manner. Fun have during 0-week. Scott Chambers Ag IV

Nigel Hart Ag IV.

In Australia every year over 9,000 fires cause damage to residential buildings and associated with this damage is the loss of human life. Each year there are narrow escapes from death or serious injury.

The following are the fundamentals of escape from fire.

• Fire may occur in any part of a building through a variety of causes; it is your responsibility to be familiar with the evacuation procedures and break out. Every occupant must know how to escape from individual rooms by using the normal route is blocked by fire.

- In buildings of two stories or higher, occupants should be familiar with the location of all stairs, and in the event of fire blocking an escape route you must be familiar with alternative exits. Each occupant should know the location of the nearest access route "break glass" alarm point to their room.

- In an emergency situation it is likely that power failure will occur. It is important that stairways, hallways and exits are clearly marked. Keep calm, keep safe and ensure that the risk of panic due to darkness.

- Remember to close, DON'T LOCK, all doors and windows. Oxygen starvation can slow the spread of fire.

- Every occupant should know how to call the Fire Brigade and other Emergency Services as required. From public phones, ring 000 and from phones connected to the College PABX, dial 100. You will have to ask for the service required and give details of the emergency. The College Secretary, in most cases, will stay and ensure that stairways, hallways and doors are all kept clear.

- Fire fighting pending the arrival of the Fire Brigade should not be attempted unless this can be done without risk. Remember that toxic fumes and carbon can cause fatalities. If use of a fire extinguisher is attempted, take time to read the label to ensure you have the correct type.

- One point to be emphasised to all residents is that if heat can be felt through a closed door, it is dangerous to open it and an alternative route should be found. In a situation there is a lot of heavy smoke you should crawl along the floor where possible. Smoke kills more people than fire itself.

In evacuation of a building, the following must be safety without panic. You should not attempt to save personal possessions, and there can reach dangerous proportions within minutes. If you find someone unconscious, shout them out on a blanket, as it is easier for them and safer.

- What can you do to assist with evacuation procedures?
  - close doors and windows;
  - bang on neighbours' doors;
  - set off alarm;
  - without endangering yourself - check to see there is no one in showers or toilets.

- ASSEMBLE AT YOUR MUSTER POINT.

- A nominated person from each residential block, usually the Fire Warden or Senior Resident, should be appointed to account for all occupants. The College/local Fire Brigade should be advised immediately they arrive, as to whether all occupants are accounted for or if residents may have not escaped. It is the Senior Resident's responsibility to report to the College or local Fire Brigade.

- If you can assist in any way, e.g., first aid, report to the Emergency Services personnel, ONLY after you have been accounted for by the Fire Warden. If you do not report to your muster point, you may be thought to be missing and cause an unnecessary and dangerous search to be instigated.

**WHAT CAN YOU DO TO PREVENT FIRE?**

- Do not leave electrical appliances turned on whilst your room is unoccupied. Don't leave unused electrical appliances in kitchens turned on and don't dry tea towels over an element. Also be careful not to put stoves against a wall or place the heat from the element may cause a fire (especially in A-block).

- Do not use waste paper bins as ashtrays.

**IN EMERGENCY SITUATIONS, DO NOT INTERFERE WITH FIRE FIGHTING EQUIPMENT.** You can and will be fined if caught using equipment illegally.

- H.A.C. Volunteer Fire Brigade (H.A.C.V.F.B.)

FIVING AND TRAFFIC REGULATIONS

Established by Council Pursuant to the By-Law, Chapter III, Clause 131(b)

1. PREAMBLE

The Regulations, which are seen as being fair to all members of the College Community (students, staff and residential staff's families) and simple and easy to follow, are designed in order to ensure:

1.1 responsible standards of traffic control and safety are maintained on campus, and
1.2 the preservation of College grounds by minimisation of damage due to vehicular traffic.

2. AUTHORITY

2.1 These regulations are established by the College Council under the proviso of Clause 131(b) of the College By-Laws.

2.2 The Principal, on behalf of Council, is authorised to:

(a) determine those College staff members or categories of staff members who shall be deemed for the purposes of those regulations to be authorised persons;
(b) determine for the purposes of these regulations those areas of the College which are car parks and the categories of persons designated to park therein; and
(c) determine areas where a special maximum speed limit shall apply.

2.3 The determinations made by the Principal in 2.2 above shall be published in the official College publication 'IUNO', in the Student Newspaper 'JUMBUNNA' and placed on the official College notice board.

3. DEFINITIONS

These Regulations and for the purposes of these Regulations;

AUTHORISED PERSON means any member of the College staff authorised by the Principal in terms of Clause 2.2(a) above to implement these regulations.

SECURITY SECTION means that section of the College administration so designated.

MOTOR VEHICLE means any motor vehicle as defined under the Motor Traffic Act (NSW) 1959 as amended, and is to include a motor cycle or motor scooter.

4.2 The College accepts no responsibility for any damage caused to any vehicle whilst on the College grounds, whether moving or stationary, nor can it be held responsible for the loss or theft of any contents or accessories in or upon any vehicle.

4.3 The provisions of the Motor Traffic Act 1959, as amended, and its regulations shall be the basis for determining traffic breaches.

5. REGISTRATION

5.1 It is a strict requirement that all students, resident and non-resident; all staff, whether permanent or part-time, and staff and students of affiliated institutions, register any and all vehicles in their control, driven or parked on College grounds with Security by completing a 'Registration Card', either before bringing a vehicle onto College grounds, or immediately after entering the grounds. The student or staff member concerned will be issued with an identification sticker which must be permanently and immediately affixed to the windsheild or most visible of the vehicle adjacent to the Department of Motor Transport registration label so as to be clearly visible to any person.

5.2 Failure by either student or staff to comply with the above requirements will constitute a condition in which the relevant vehicle is illegally on College grounds.

Penalties for Infringement of Regulations and Principal's Determinations in Next Week's Jumbunna.

5.3 Any vehicle brought on to College grounds shall be operated whilst on those grounds at any point in time in a manner which, as determined by the Principal, will ensure all students, residents and non-residents are able to observe the College Traffic Section.
